Projects

Iris Classifier Using|Python & Scikit-learn

Feb'2026

- Developed a machine learning model using Python and Scikit-learn to accurately categorize Iris flower species.
- Conducted data preprocessing and EDA with Pandas and Seaborn to identify key feature correlations.
- Trained classification algorithms, including Logistic Regression, to build a robust model with high predictive accuracy.
- Evaluated model performance using confusion matrices and accuracy scores to ensure high classification reliability.

Fire Department Calls for Service Analysis| Python, NumPy, Seaborn, Matplotlib

Sep'2025

- Analyzed Fire Department Calls using Python and NumPy to extract meaningful patterns and insights on San Francisco Dataset .
- Performed data cleaning, preprocessing, and statistical analysis to identify trends in call frequency and response times.
- Created visualizations with Seaborn and Matplotlib (histograms, boxplots) to highlight seasonal, and category-based patterns.
- Delivered actionable insights through automated data validation and cleansing workflows ensuring 100% data integrity.

Training

Lovely Professional University

Bootcamp PL/SQL - Summer Training on Data Science, PL/SQL

Jul'2025

- Successfully Gained and revised additional knowledge of Structured Query Language methodology, by working on bigger datasets.
- Learned the basics of PL/SQL programming including blocks, variables, and control structures.
- Gained experience in exception handling and cursors for efficient query execution.
- Developed practical skills in writing and managing stored procedures, functions, and database triggers to automate tasks.

Certificates

Data Analysis with Python

Mar'2026

Programming in C Language

Mar'2026

Bootcamp in PL/SQL -Lovely Professional University

Jul'2025

Legacy Responsive Web Design V8

Dec'2023

Bootcamp in Python -Lovely Professional University

Nov'2023

Technical Skills

Languages: Python, C, java, SQL, HTML

Core Concepts: Data Visualization , Data Base Management System

Framework: Matplotlib, Seaborn, Tableau, Excel, NumPy, Pandas

Developer tools: PyCharm, VS code, Jupyter Notebook, Google Collab

Education

Lovely Professional University

Since Aug,2023

Computer Science and Engineering Data Science with ML

Jalandhar, Punjab

Navyug Convent School

2021– 2022

12th with Science — Percentage:82%

Nazafgarh, New Delhi

Navyug Convent School

2019– 2020

10th with Science — Percentage:80%

Nazafgarh, New Delhi
